

Floor Loads Guidelines

Floor Loads of Exhibit Halls

The load capacities for various areas of Washington State Convention Center are described below. Should you or your exhibitors have special load requirements for live or static equipment, please send the specifications to your Event Manager (prior to selling space). Under certain conditions the 4ABCDEDEF floor can accommodate loads up to 350 pounds per square foot. The WSCC reserves the right for final approval.

Exhibit Halls 4ABCDEDEF

250 lbs per square foot – forklift access is permitted
